Dear Ken:

Just a line to thank you for sending me the CAP Bulletin of November 27th. I read these bulletins from your office with much pleasure and am still much interested in the baby we worked so hard to keep alive the first part of this year.

I don't know whether you ever get out this way, but Earle Johnson ought to send you out in the underbrush to see how the other part of the world lives. After living up in the rarified atmosphere of the throne so long, one ought to get out with the outer barbarians and see how the other part lives. If you ever venture forth from Washington, make the trip all the way to Denver. Whenever you get here we'll be delighted to see you.

With very best regards.

Sincerely yours,

JOHN F. CURRY,
Major General, U. S. A.
Commanding
